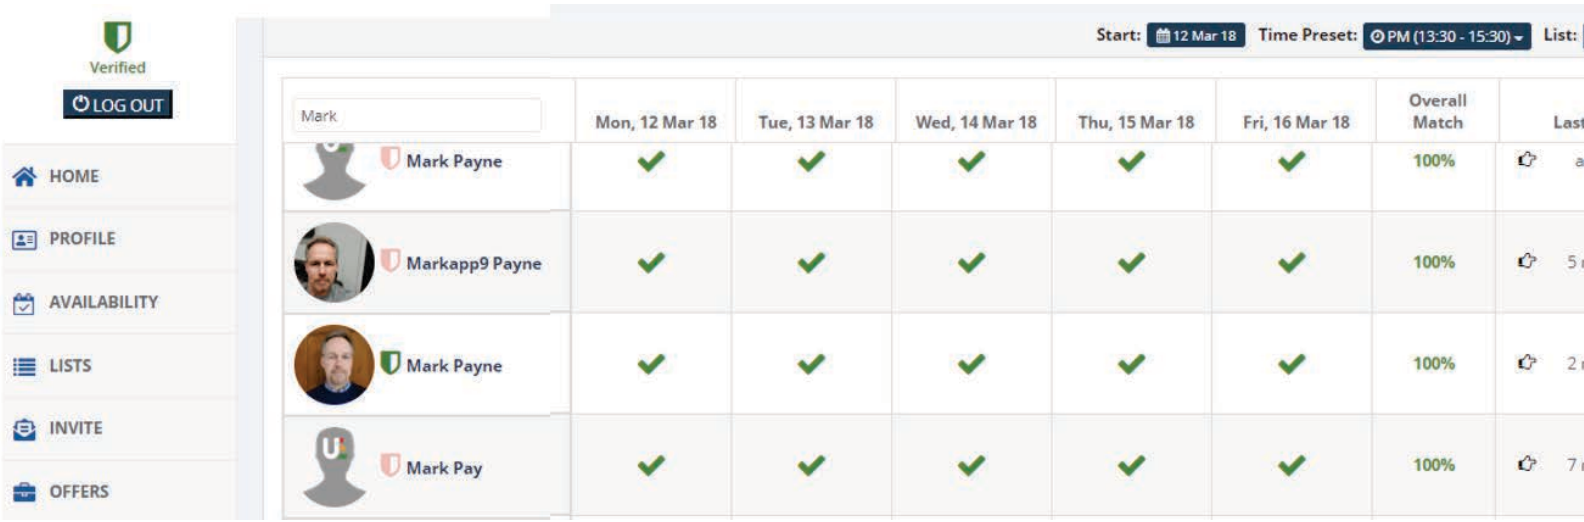
updatedge

The recruiters availability SaaS subscription service to book more available staff more often and quicker whilst reducing wasted admin time.



Why use updatedge?

More bookings & profit

Saving 20%
of recruitment consultants time each week

Direct Bookings
25%+*

- Know workers availability first.
- Make more bookings & profit (1 more booking per day at £50 margin increases earnings by £13,000 per consultant).
- Book candidates quicker.
- Book more of the available candidates, knowing their latest availability.
- Receive orders directly from hirers who chose their best candidates knowing their availability and selecting them themselves.
- Send offers directly to workers from your CRM system to the mobile app with your company and consultants branding.
- Saving 20% of recruitment consultants time each week so they can place more candidates quicker.
- Get deeper commitment from your clients by providing them choice & control with easier access to your candidates.
- Have live availability entered to your CRM for consultants without ever chasing or recording availability again.
- Get accurate and regular availability updates from all your workers without chasing.
- Remove errors attempting to accurately record endless changing availability from emails, calls and text messages.
- Get deeper commitment from your candidates by inviting them to use updatedge, giving them the choice and control over who they connect with and receive offers from.

*Typically achieved by recruiters within 3 months of 75% of hirers using the updatedge portal

updatedge

How?

Simply invite all your workers from the updatedge portal to share their latest availability and get offers from you and all their contacts via the open mobile app.

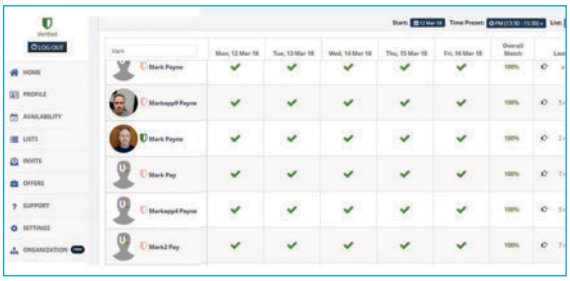
Plug live availability and offers directly into your exiting CRM system.

If your agency hasn't got accurate online live availability, it is at a disadvantage to those who do!

Availability is in relentless and constant flux. Updating systems with the latest state is a competitive necessity, with the easy to implement updatedge plug in:

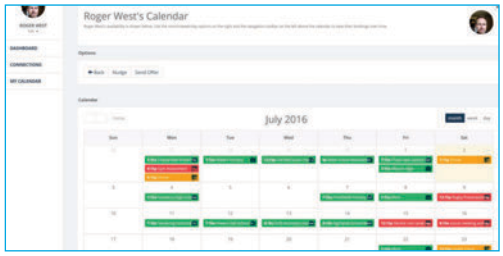
- More bookings quicker
- Know instantly who is available at any point of the day
- Access live availability 24/7, 365
- No more chasing, reducing admin & errors
- Updates automatically entered to systems
- Access all contacts availability via existing core systems, or via updatedge
- Instant alerts for key people's availability
- Confidence indicator by contact
- More assignments filled quicker
- Happier customers
- More productive consultants
- Competitive advantage maintained

updatedge includes an Open API for updates to be pulled directly into back-end systems further reducing administration costs.



For agencies not using the API access to all contacts latest availability is via the updatedge portal.

To access the portal go to: https//portal.updatedge.com and sign up to the service – or to find out more see the web site at: www.updatedge.com

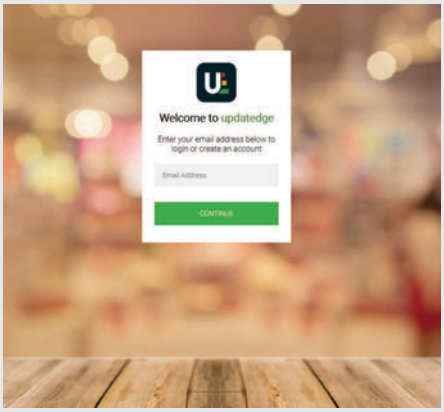


Cost?

Updatedge is a subscription SaaS solution with a complementary mobile app for workers and portal for hirers.

Only pay for the data you use.

The open API is available with a monthly subscription from £0.06 pence per day, for unlimited access to searches and offers per distinct contact's data used.



Try the service out

Go to the portal (https://portal.updatedge.com) and invite yourself to share your availablity from the mobile app. And go from there.

If you would like an online demo let us know via the website or we can visit your office and demonstrate how it all works and discuss how it will work for your business and new functionality in development.

Please let us know how we can help.

If you would like to book a 1-2-1 demonstration, please contact us using the details below.

Check our website for details of updatedge webinars.
